

N.E.L.A. Bulletin Volume 5

By National Electric Light Association

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1918 Excerpt: .there is a deficit of \$9,853.41 instead of a profit of \$113,162.20. Every dollar that has been put into this plant in the eleven years since its inception is still counted as an active asset with the exception of \$97,059.24 charged off as Depreciation as follows: 1914 \$24,115.35 1916 \$29,658.99 1915 13,284.90 1917 30,000.00 There seems to have been a lack of systematic bookkeeping, thereby leaving an opening for a mistaken idea as to the real results obtained in the operation of the plant. In fact, the report states that no books were kept prior to 1914. TOPSY-TURVYDOM IN ONTARIO By Glenn Marston For years Sir Adam Beck, as head of the Hydro-Electric Power Commission of the Province of Ontario, has been bending every effort toward putting the privately-owned electric light and power companies in that part of Canada out of business. And yet, on the...
