

## Not Relativity: Just Weird Gravity (Paperback)

By Syd Wilcox

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.There is something that travels faster than light and this has been known about for decades. In the year 1725 an observation was made that disproved the later claimed principle of invariance which is where or why the name Relativity comes about and is thus the foundation stone or fulcrum point of the theory of relativity put forward by Albert Einstein some 180 years later, and thus totally destroys Einstein's theories of relativity before they are even written and proffered up. In the year 1913 an experiment was conducted that proves beyond doubt, (it is today a very well established fact and commercially used effect) that light is NOT a constant, and that light can travel faster than  $c$  to an exceedingly close frame of reference and also slower than  $c$  to a very close frame of reference, contrary to Einstein's theories. Time dilation is shown to be totally false and the supposed mind experiments claimed to prove dilation are exposed and shown to be FLAWED. TIME is given a true, exacting and unambiguous definition as never before. The reason...
