Reviews

Thorough information! Its this type of great go through. It is amongst the most incredible publication i actually have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

NON-EQUILIBRIUM DYNAMICS IN CHEMICAL SYSTEMS: PROCEEDINGS OF THE INTERNATIONAL SYMPOSIUM, BORDEAUX, FRANCE, SEPTEMBER 3 7, 1984

DOWNLOAD

Springer. Paperback. Condition: New. 272 pages. Dimensions: 9.6in. x 6.7in. x 0.7in. Markedly apart from elementary particle physics, another current has been building up and continuously growing within contemporary physics for several decades, and even expanding into many other disciplines, especially chemistry, biology and, quite recently, economics. Several reasons account for this: presumably the most important one lies in the fact that, whatever the specific problem, model or material concerned, the same basic mathematical features are always involved. In this way, a general phenomenology has emerged which, unlike thermodynamics, is no longer dependent upon the details or specifics: what largely prevails is the nonlinear character of the underlying dynamics. Perhaps we are witnessing the emergence of a nonlinear physics - in a way similar to the birth of quantum physics in the twenties - a physics which deals with the general behaviour of systems, whatever they are or may be. Over the past fifteen years, chemical systems evolving sufficiently far from equilibrium have proved to be particularly well fitted to experimental research on nonlinear behaviour: oscillation, multistability, birhythmicity, chaotic evolution, spatial self-organization and hysteresis are displayed by chemical reactions whose number is growing each year. In this volume are collected the lectures, communications and posters (abstracts) presented at an international meeting entitled: Non-Equilibrium Dynamics in Chemical Systems, held in Bordeaux (France), September 3rd-7th, 1984. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
