Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Deeply divided between North and South, the Italy of the 1980s represents an unparalleled example of dualistic development, counterposing two profoundly different models of society and politics. In the South, socioeconomic backwardness was matched by the persistence of traditional forms of political behaviour - a politics based primarily on personal ties and patronage rather than on broader bonds of interest or ideology. This study seeks to understand the sources of popular support for clientelism in a resource-scarce society such as southern Italy. It analyses the dynamics of continuity and change in a political system based primarily on clientelism rather than on broader bonds of interest or ideology. The author explores the concrete patronage mechanisms linking the dominant party to each of the major social groups in the city - ranging from the urban poor to the Mafia. By contrast, the sections on Naples address the question of the conditions under which political machines may have lost their mass base of support.

### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
